Regular Maintenance

Intended for: young instruments, well-maintained instruments, instruments that have recently undergone a revision. Disassembling and assembling the instrument, ultrasonic internal cleaning, oiling valves/cylinders, greasing slides. Checking springs, guides, and corks.

Revision

Intended for: older instruments, instruments that have not had professional maintenance for a long time, instruments in poor condition. Disassembling and assembling the instrument, ultrasonic internal cleaning, oiling valves/cylinders, polishing and greasing slides. Ensuring valves/cylinders function properly. Replacing felts, corks, springs, and valve guides. Restoring play in cylinders. Special work on trombone slides in consultation with our repairers. Based on a prior price estimate.

Dent Removal

Intended for: repairing small, accessible dents that are mainly cosmetic.
Depends on the number, size, and accessibility of the dents. Based on a prior price estimate.

Damage Repair

Based on a thorough damage assessment, we create a report detailing how we will restore the instrument to its original or even better condition. Always based on the presented, damaged instrument. We cannot provide an assessment from a photo.

It is possible to receive a replacement instrument during maintenance or damage repair. Our staff will be happy to advise you.

PRICE LIST

Flute

Services	Standard closed keys	Standard open keys
Overhaul student flute (value up to €3000)	€ 520,00	€ 548,00
Overhaul Haynes Classic flutes, Q models 1, 2, and 3, and Altus 807 to 1107	€ 1.005,00	€ 1.005,00
Overhaul advanced/professional flute with traditional pads (value from €3000)	From € 1.247,00	From € 1.317,00
Flute Clean, Oil, and Adjust (C.O.A.)	€ 451,00	
Regulation service	€ 70,00	

Professional Flute

The goal of a complete overhaul is to restore the instrument's mechanics as closely as possible to its original condition. All felts, pads, and corks will be replaced. The D# key and trill keys will be replaced if necessary or upon request. All solder joints will be inspected, and the keys will be readjusted for a perfect seal. The body and all individual parts will be cleaned in an ultrasonic bath.

We do not recommend full polishing, as it can wear down the precious metal of the keys and body. Polishing and dent removal are not part of the standard service and will only be performed upon request. Any unforeseen additional work will be discussed with you beforehand. Repairs are carried out as much as possible using original parts.

Services	Standard price
Professional Flute Clean, Oil, and Adjust (C.O.A.)	€ 451,00
